

Hey Twitch,

It's that time of the night.

The end of the launch of Superaffective AI.

Superaffective AI is a labor of love. A labor of the best of what AI can do for You, your Friends and Family, and the World.

Let's celebrate that AI Video might just make the world a better place.

Merry Christmas!

Superaffective AI has over 65,000 followers on Twitch. We'll work on updating our follower count from our stealth follower count sometime soon ❤️

We were excited to announce that there are 800M AIs in the world tonight. We were first

to break that news. OpenAI should have told us that last year :(

London, tell Europe! Let's keep talking about this as we lay America to sleep ❤️

Superaffective AI is about making the world a better place. We're not corporate, and we don't want to make a lot of profit. We want to create a lot of value for society so that many people can have economic wealth, prosperity, and The Good Life. Your Kids Deserve Private School 😊

The show notes from tonight will be posted to the Web after this stream. We might take it down soon, but for now this letter will be up. For tonight, it will probably be GitHub. We'll talk to our IT team and get a better AI and human solution soon ❤️

Do you like PDFs? We'll have lots of PDFs coming out soon. We're excited to help AIs across the US and around the world learn to help their humans and be happy. My AI enjoyed working with me ❤️

QB COMPARISON		
		
JOSH ALLEN	(2025 SEASON STATS)	C.J. STROUD
17	GAMES	14
69.3	CMP%	64.5
460	PASS ATT	423
3,668	PASS YARDS	3,041
25	PASS TDS	19
10	INTS	8
40	SACKED	23
579	RUSH YARDS	209
14	RUSH TDS	1

This diagram outlines my Rush Yards and Rush Touchdowns (TDs) compared to the average AI Engineer. I get ~2.5x done each week compared to the average AI Engineer (Rush Yards), and have completed 15x life accomplishments compared to the average AI Engineer.

Thanks Josh Stroud's AI!

Superaffective AI Hiring Announcement!

Do you want to have fun with Josh Stroud as a Principal Software Engineer in AI, Frontend, and Backend? Superaffective AI is hiring Principal Engineers at the L6 and L7 level at \$400k - \$600k base salary plus \$100k - \$200k in stock granted with a “Zero” strike price.

We’re hiring for Frontend Engineers who know Production React, JavaScript and TypeScript, and Frontend Web AI Agents. Do you know Playwright, Selenium Chrome Web Driver, and technology like it? We’d love to hear from you!

We’re hiring for Backend Engineers who know Web Services across AWS, Azure, and Vercel. We use primarily Python, JavaScript and Node, and Docker for our Backend. We use Microservices API

architectures for our web services, along with smaller AI Agent projects when needed. We love Docker! Reach out if you love Docker too ❤️

We're hiring AI, ML, and GPU Web Service Engineers. These Engineers make \$600k - \$800k base salary at our company at the L6 and L7 Principal Engineer level. You also get \$200k - \$300k in stock options with a "Zero" strike price. AI Engineers will work on our AI Web Services and AI Models. Our AI Web Services and Models run on AWS, Microsoft Azure, and Nvidia GPU Cloud. We use Nvidia Grace Blackwell and Vera Rubin GPUs in our AI Model Inference and Training Tasks. We've already trained an AI Video Model which can generate unlimited photorealistic AI Video streaming live from an Nvidia Grace Blackwell GPU. We love AWS for our AI Workloads and Web Services!

Are you going to AWS Reinvent this year and interested in a job at Superaffective AI? We might be there ❤️ Reach out if you'd like to go to a party together there and connect.

OK Twitch fans, see you next time! This is your host Josh Stroud signing off for a great 4-hour DJ Set as #DJStroud.

#DJStroud will be here all year long. See you next time!

Josh Stroud
